

Imagem

```
classDiagram
    class Imagem
    class sjogo
    Imagem <-- "1" sjogo : p_imagem_maos, p_imagem_pecas
```

The diagram illustrates a directed association between two classes. The 'Imagem' class is represented by a white rectangle with a black border at the top. The 'sjogo' class is represented by a gray rectangle with a black border at the bottom. A purple arrow points from the 'sjogo' class to the 'Imagem' class. Along this arrow, the association is labeled with two attributes: 'p_imagem_maos' and 'p_imagem_pecas'.
